## The Challenges of Contract Management

### Consistency

Maintaining and locating up-to-date contract files across your company.

### Version Control

Managing version control during contract negotiations is a manual and error-prone process.

### Risk Management

Enforcing proper approvals and controls is almost impossible, leaving your business at risk.

## The Uplevl Solution

With Uplevl you can store all contracts in one place and access them from almost anywhere with our cloud-based platform. Find exactly what you're looking for with our powerful and easy-to-use search capability and track versions and revisions automatically.

Plus, enjoy flexible workflow capabilities, which will automatically route documents for review and approval based on pre-set rules.

## Organize Your Contracts

Uplevl's simple-to-use folder structure makes it easy to organize your contracts in a way that makes the most sense for your business so you can spend less time looking for a contract and more time actually working on it. Along with tagging, meta-data, and automated workflow routing, your contracts are easy to find and process.
